

Overview

The Axiom Wireless Chime Relay is a solid state relay that allows wireless remote control of a powered chime with real chime bars providing the most luxurious sound available.

Installation is easy. Open your wired chime in accordance with the manufacturer's instructions and recommended safety procedures. Then make four simple connections and insert the relay device.

When multiple Axiom Doorbell Buttons are installed at separate entrances the chime relay can differentiate between them and instruct the chime to sound in two tone or single tone mode. Fully compatible with Control4.

Model Number

CR-C4ZB-11

Approvals

FCC Part 15
CE

Wireless

ZigBee PRO (802.15.4)
Control4 driver downloadable

Color

Black

Dimensions

W 1.25" x H 2.1" x D 0.6"
W 3.18cm x H 5.33" x D 1.52cm

Uses

Wireless remote control of wired chimes
Multi-purpose relay for low voltage loads

Relay Function

Solid state relay with two switched lines (AC)

Mounting

Double sided adhesive

Power Supply

Max electrical load ratings on each switched channel: 30VAC | 1.2A
Min/Max voltage input to the device: 15-24VAC typically from chime transformer
