

Motion Sensor 360 Bezel

OVERVIEW

The Axxess Motion Sensor 360 Bezel supports all motion dependent functions, including lighting, security, occupancy detection and energy management.

Upon detecting people moving in a space, it communicates that event wirelessly on a programmed schedule.

The low-profile bezel is less than 1/8" thick, and the entire unit is only 1/2" tall, resulting in an unobtrusive and clean looking installation. Utilizing a simple mounting system, the Motion Sensor 360 Bezel installs in seconds and enables quick removal.

The Motion Sensor 360 Bezel can be combined with our Wireless Contact Switch to reliably determine occupancy status of a room. This is vital information for a variety of systems, including energy management, helping our environment while improving your bottom line.

Motion Sensor 360 Bezel

MSCB-C4ZB

USES

- Energy management
- Security systems
- Automatic lights
- Home & office automation

WIRELESS

ZigBee PRO Compatible
(802.15.4)
Drivers Downloadable
Control4 Compatible

COMPLIANCE/APPROVALS

FCC Part 15 | CE

COLORS

White

POWER

12-24V DC
50/60 Hz AC/DC

MOTION SENSOR

- PIR motion sensor (quad element ambient effect reduction)
- Viewing Angle: 360°
- Effective coverage: 27'+ diameter (depending on ceiling height)

DIMENSIONS

Body:
ø 2.23" x .5"

Flange:
ø 3.60"
